MARCH BULLETIN

WISCONSIN FEDERATION OF STAMP CLUBS

With the convention so close we suppose that everyone is getting all excited and are working feverishly to win first prize at Milwaukee as the gent pictured on the first page. May the best man win. We want to thank Ray Van Handel (Sheboygan) for the work of the cover design. Ray says this will be his contribution to the bulletin this month. That's what we like, lots of cooperation. The Secretary sent the original design to Ray and we hope you like it.

Folks, take off your hats to the First all-women's stamp club to join the Federation. The Women's Stamp Club of Milwaukee is the correct name and to Albert Draves goes the credit for promoting the Federation idea to them. The ladies hope that they will prove an incentive to other groups of ladies to come forward and organize. The club meets the 2nd and 4th Thursdays at 2463 W. Wisconsin Ave. Women wishing to join as members or non-resident members should contact Mrs. R. Strasser at the same address. A guest speaker is heard every other meeting. The group is newly organized and would appreciate the donation of a used Scott's Catalog.

Another Milwaukee group to join is the Monda Ligo, a local branch of this international society. Rudolph Pape is Sec. and also International Secretary. This is a fine organization to join if you are interested in trading stamps with members in foreign countries. A good way to get stamps direct and learn something about foreign countries. The address is 1305 S. 35th St. Milwaukee. More thanks to Albert Draves for engineering this club. The Madison Stamp Club will hold a stamp jamboree, including an exhibit, banquet and auction March 19-21, 1937, at Hotel Loraine. The banquet will be Saturday March 20th. Come one. Come all. A fine time promised for all. Struggle your best to get there. Your president and secretary will be there together with a gang from Oshkosh and this will be a good opportunity to get acquainted. The Footloose Filatelists will also hold a meeting in Madison in conjunction with this stamp gathering.

The president recently received the following communication from Waupaca:--- "The Waupaca Philatelic Society is progressing nicely. Had three visitors at the last meeting and expect to take in two of them as members next time. Also took in one last time.. This will help to make up for our hard luck in 1936-- when we lost two by death and I believe six members moved from town. But we never give up and hope to have our old membership back again. And by the way, The Waupaca Phil. Soc. will hold their semi-annual auction on May 12th. Leo Martin will be auctioneer. The auction will consist of 150 to 200 fine lots-- mostly U.S. and when we say fine we mean fine. Guess we are noted for it--how's that for patting ourselves on the back? We understand a preliminary auction will take place in Milwaukee May 1st and they can come to the real one here on the 12th, ahem! Write for printed lists." If any club is interested in securing a dozen exhibition frames write to the secretary at 330 Main St., Oshkosh, Wis.

All clubs are earnestly requested to send in their slates of officers so that they can be printed in the next bulletin which will appear about April 10th. Remember also all legislative matters be sent to the secretary for publication so that clubs may discuss them before the convention. One last thing, name two delegates to the convention.

The Oshkosh club recently voted to turn all their meetings into an informal gathering with practically no business. More stamps and less chin music.

Speaking of music remember it is music in our ears to hear from the member clubs on any subject. If you want to see your name in print, just write us a letter and say, "Howdy".

Be seeing you in April via Bulletin.

Sincerely,

Silas L. Spengler

President
